Revised WP 3.3.6&7 text.pdf  
FIG 3 PRO SOIL BORING MAP.PDF

Shelly,

Good afternoon. I hope you made it through the recent bad weather in one piece? It was very brutal. Per the EPA Comment letter dated December 30, 2013 and our follow-up telephone conversation on December 31, 2013, SESCO has made proposed modifications to Sections 3.3.6 and 3.3.7 of the Work Plan. The proposed changes are presented in red in the attached text. Associated Figure 3 has also been modified and attached. Please review these documents at your earliest convenience and let us know if you are in agreement or not with the proposed changes. Once we reach an agreement on the work scope, all other associated tables and QAPP Sections will be modified accordingly. All other comments in the letter have been addressed. Thank you.

Brent A. Graves, LPG

Chief Operating Officer
